Date ...19|11|2024

Dear Admissions Committee,

It gives me great pleasure to suggest Chinmay as an outstanding candidate for your prestigious institution's graduate program. In the Robotic Process Automation (RPA) course and Programming lab sessions, as well as on several projects early in his bachelor's studies, I had the pleasure of working closely with Chinmay. Chinmay has continuously amazed me with his capacity for problem-solving, intellectual curiosity, and dedication to expanding his technical knowledge throughout our exchanges.
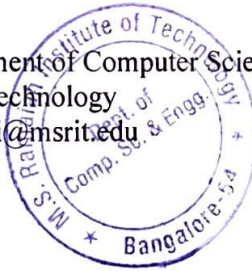

Chinmay is an extremely perceptive and analytical thinker who frequently makes creative concepts a reality in both projects and competitive environments. I introduced him to UiPath, an RPA tool, during our course. As evidence of his commitment to learning, he quickly became proficient and pursued additional certifications to deepen his knowledge. He led a team under my direction to compete in Automatathon, a national level hackathon hosted by IIT Bombay, demonstrating his proficiency with RPA. His excitement for the competition was contagious, and his contributions to the development of our project were invaluable. Chinmay's team's eventual victory in the hackathon earned them certificates and cash rewards, which is a testament to his technical prowess, leadership abilities, and teamwork.

Beyond the classroom, Chinmay has a keen interest in RPA, machine learning, and artificial intelligence. He frequently participates in conversations regarding new developments in the field, demonstrating a strong dedication to remaining current with emerging trends. He consistently demonstrates a drive to stay abreast of advancements, as evidenced by his proactive pursuit of relevant internships, one of which resulted in a successful conversion to full time role.

Finally, I whole heartedly believe that Chinmay is a good fit for your graduate program. He is a great asset to any academic community because of his technical proficiency, commitment to lifelong learning, and leadership abilities. If you need more information, feel free to reach me at ganeshayyashidaganti@msrit.edu.

Sincerely,

Dr. Ganeshayya Shidaganti
Associate Professor, Department of Computer Science,
M. S. Ramaiah Institute of Technology
